Reports to: Machine Shop Foreman

Job Type: Full-time - \$39.82 / hour

Location: Duncan, BC

Date: June 2021

Come live in the beautiful Cowichan Valley: <https://www.ecdevcowichan.com/changemakers/>

Position Summary:

- Promac is looking for a Machinist to join our team
- CNC machinist who will set up, write, and prove programs and operate CNC vertical and horizontal milling centres. Also create programs using GibbsCAM computer software. Fanuc controller experience would be an asset
- Additionally, Manual Machining experience would be an asset
- Interprovincial Machinist qualification (or equivalent) is required with a minimum of 5 years' experience

Compensation:

Upon successful completion of a probationary period, Promac will provide an excellent compensation package including:

- Industry leading wages
- MSP coverage
- extended health and dental
- 10% company contributed RRSPs/Pension
- \$250 annual boot allowance and safety equipment cost allowances. (As per a collective agreement)
- For the right candidate, we are willing to help with relocation expenses

Essential Duties and Responsibilities:

- Studies drawings, sketches, manuals, specifications, or sample part to determine dimensions and tolerances of finished workpiece, sequence of operations, and setup requirements.
- Selects and sets up holding fixtures and jigs, cutting tools, attachments, accessories, and materials on machine tools as necessary to machine parts as required.
- Verifies conformance of finished workpiece to specifications, using precision measuring and inspection tools as necessary.
- Performs routine maintenance tasks on machines as required and maintains a clean and organized work area according to maintenance plans and established procedures.
- Confers with engineers, production personnel, or others to resolve machining or assembly problems.
- Works well independently or in a team environment.
- Maintains a positive work atmosphere by acting and communicating in a manner so that you get along with customers, clients, co-workers and management.
- Continues to learn and grow within our dynamic workplace.
- Ensures that safe work practices are followed and adhered to.

Training:

- Machine specific and GibbsCAM training will be provided if needed.
