

PROMAC LOG-TURNER SPIKED ROLLS

Never remove your log turner spiked rolls out of the frames again, saving time and bearings

- Any diameter, any length & any hub
- B-loc hubs, very popular
- Spikes hardened to RC 50-54
- Every spike threaded in with Red Loctite

PROMAC HOURGLASS ROLLS

Achieve better control of your logs with easy to maintain hold down rolls

- Change the teeth not the roll
- When teeth wear, flip them over
- No need to remove the roll from pivot arm, saving bearing's and time
